

SPONSORSHIP PROSPECTUS

(ISC)² SOUTHERN CONNECTICUT CHAPTER
CTF EVENT AUGUST 3 - 4, 2019
ONLINE CHALLENGE OPEN TO ALL

Info: <http://isc2ct.org/ctf.htm>

Thank you for taking a moment to read about this exciting **sponsor opportunity to showcase and highlight the products and services of your business.**

I am writing to you as a representative from the Southern Connecticut Chapter of (ISC)². We are a registered nonprofit entity with a focus on Cybersecurity awareness and trends. **Our chapter is listed in the ISC2.org directory.** [<https://www.isc2.org/chapters/chapter-directory>]

We hope you will get involved in this CTF event. This event has a different focus. Many CTF's test the red team, programming or reverse engineering skill. With a **large skill gap** for security analysts, this CTF aims to include those but also show a different side where incident response, identification, escalation, compliance and regulation are introduced.

How can you get involved? Create a CTF Incident Response style challenge.

What does that mean? The challenge should show the issue and propose answers that would help mitigate and resolve it. [Example: Show several log entries where a user is trying to move lateral. Ask 'What IP looks suspicious?' 'What appears to be happening?'; Another example – create a network capture file and have the challenge be to extract the password; Another example – Have your product show activity and challenge would be to determine what is happening].

The CTF site can link to your own site to present the challenge or the challenge can be hosted.

After the CTF closes, **you will be given the list of emails that have registered.** The registered users will be notified that you will be contacting them. Prizes will only be given to those that register with a **business email address.** This will help get more valid users.

The cost for this sponsor opportunity:

1. Create your own challenge for us to upload/use/link to - \$2000
2. We create a challenge on behalf of your company - \$3000

Please note: All sponsor money needs to be received by 1 July 2019

The sponsor money will go to providing platform support, prizes for participants and other costs.

We hope you will consider this opportunity and reach out to us for further information.

Sincerely,
ISC2CT.org CTF Coordinator
